

## **FLOWGORITHM PRIVACY STATEMENT**

The following privacy policy (the "Privacy Policy") specifies what information is stored by Flowgorithm (the "Application") on the user's (the "User") computer.

### **1. Data Transmitted by Flowgorithm**

No data is transmitted by The Application over the Internet or local network.

### **2. Data stored on the User's computer.**

With the exception of settings stored in the Windows Registry and data files (as specified below), no data is stored on the User's computer.

### **3. Flowgorithm Program Files (.fprg)**

**3.1** Flowgorithm Program Files are generated, by the Application, to store the User's project. They are only created when "Save" is selected from the menu. Files are never auto-saved.

**3.2** File are stored in XML format. This is a passive text document. There is no active content.

**3.3** The file contains meta-data related to edits, to the program, by the User. The intent is to provide information to prove cheating or other forms of academic fraud. The meta-data is pseudo-encrypted using Base-64. Each entry contains following:

- Username (as logged in)
- Computer name
- Time/Date
- Checksum (to detected tampering).

**3.4** No other information is stored.

### **4. Flowgorithm Color Scheme Files (.fclr)**

**4.1** Color Scheme Files contain various colors that can be applied to flowcharts and the Application's appearance. They are cosmetic and have no functional impact on the User's program.

**4.2** Color Schemes Files are stored in Microsoft INI format. This is a passive text document. There is no active content.

### **5. Flowgorithm Chart Style Files (.fcht)**

**5.1** Chart Style Files contain shape settings that can be applied to flowcharts. They are cosmetic and have no functional impact on the User's program.

**5.2** Chart Style Files are stored in Microsoft INI format. This is a passive text document. There is no active content.

## **6. Data Downloaded by The Application**

**6.1** The Application allows the User to download color schemes from <http://flowgorithm.org>. This feature accessible using the "Choose Color Scheme" menu item.

**6.2** The individual color schemes are not stored on the User's computer.

## **7. Contact Information**
